Even some of the folks who keep up with all the latest radio and newspaper news and mark lines of military strategy on tablecloths get a little behind on their Bond buying now and then. They are getting used to War Bond booths by now and that first fever of Bond buying that came after Pearl Harbor is running a little low.

They can read a list of casualties or men captured by the Japs and Germans without that impending urge to do something! Yet each time it's a different boy and a different mother to suffer heartaches. So, let's not fall down on the job. Come in and buy not only your pledged 10 percent, but dig down deep and buy an extra War Bond this week.

(1)

Faithful and true-hearted,
Let us boost for Bellaire High
We revere her and defend her,
And her colors proudly fly;
We will stand for her, united,
Of her deeds we gladly tell,
Her colors streaming
Glad faces beaming,
Then here's a cheer for her,
That we all love so well.

Chorus:—

Joyous and ever loyal
Let us Boost for Bellaire High
Let every heart sing,
Let every voice ring,
There's no time to grieve or sigh;
It's ever onward, our course pursuing
May defeat ne'er our ardor cool,
But united, We will boost for her,
Bellaire High School.

SOMETHING THEY NEED—Some important developments in parachute design and use are being made by the Germans. One type, on which the pilot sits, opens automatically. When it becomes necessary to bail out, a catapult tosses the pilot (still in a sitting position) and the parachute away from the plane.

CUSHIONED LANDING — Nazi mountain troops are reported to have been dropped successfully from aircraft without chutes. The jumps were made over Norway into snow-banks from an altitude of approximately 30 feet.

FOOTBALL PLAYS AND AERIAL STRATEGY

According to Lieutenant Commander Harold S. Larson, who played football at Annapolis in 1932, '33, and '34 and was on the boxing and lacross teams, football strategy and strategy in the air are similar. Commander Larson spoke before the Touchdown Club in Washington recently and, according to Tom McBride's report of his talk, stated that he and other former college football players had actually diagrammed football plays and used them successfully against the enemy in aerial fighting. According to this report, "More than one Zero pilot was sucked in on mousetrap plays with the bait a seemingly vulnerable navy plane".

"The focal point between aerial combat and football," Larson pointed out, "is in the coordination of attack and defense. Each pilot knows his job and knows what every other pilot will do on the play. Sometimes the team will give up what seems to be a superior position to exact the element of surprise, the old Statue of Liberty play, or a reverse and a lateral, in effect."
