# HARBIN FOOTBALL RATING SYSTEM

Reprinted from The Ohio High School ATHLETE (August, 1988)

The procedure used to rate football teams is based upon a system developed by Jack Harbin of Cleveland and used with his permission. The present procedure has been modified by the Board of Control upon recommendation of the Ohio High School Football Coaches Association.

Points will be earned by each school on the following basis:  
POINT SYSTEM

On the first level:

Points are earned for each game a team wins.  
(FULL VALUE)

Points are earned for each game a team ties.  
(ONE-HALF VALUE)

On the second level:

Points are earned for each game a defeated opponent wins.  
(FULL VALUE)

Points are earned for each game a defeated opponent ties.  
(ONE-HALF VALUE)

Points are earned for each game a tied opponent wins.  
(ONE-HALF VALUE)

Points are earned for each game a tied opponent ties.  
(ONE-FOURTH VALUE)

Points are earned on the following basis:

- Division V opponent: win — 1.0 point; tie — 0.50 point
- Division IV opponent: win — 1.5 points; tie — 0.75 point
- Division III opponent: win — 2.0 points; tie — 1.0 point
- Division II opponent: win — 2.5 points; tie — 1.25 points
- Division I opponent: win — 3.0 points; tie — 1.5 points

## 4.1 Awarding of First Level Points

4.11 For all teams playing a 10 game schedule:

- a. Points are earned for each game a team wins (full value)
- b. Points are earned for each game a team ties (half value)
- c. no points are awarded for game lost.

4.12 For all teams playing fewer than 10 games:

- a. Add total first level points earned as explained under 3.11, section a, b and c
- b. This total is then divided by the number of games actually played. To determine total first level points, the quotient is then added to the total points earned, one for each open date.

## 4.2 Awarding of Second Level Points

Second level points are awarded as a result of a team defeating or tying an opponent or, sometimes an open date according to the following formula

- 4.21 Defeating an opponent awards to the winner the loser's first level points
- 4.22 Tying an opponent awards the team one-half the opponent's first level points.

4.23 No second level points are awarded for losing to an opponent.

4.24 **Non-member OHSAA school opponents.** The school is assigned a point value based upon male enrollment in grades 9-11. Second level points are awarded based upon the point value of the OHSAA non-member school multiplied times the number of victories by the non-member school (one-half value for a tie)

NOTE: This section requires the reporting of victories earned by a non-member OHSAA school which was defeated by an OHSAA member school. It is the responsibility of the OHSAA member school to report the results of the games of non-member OHSAA schools. This reporting must be made to Lynette Young-Hipsher at the OHSAA office on Monday of each week and on Saturday, November 5, 1988 for the last week. Results unreported will not be credited to the OHSAA member school's second level point total.

4.241 When the non-member school plays more than 10 regular season games, only the first 10 games will count unless the game with the OHSAA member school is the 11th game in which case the nine games preceding it shall be counted.

4.242 When the non-member school plays less than 10 regular season games, the open dates will be considered an open date except in Indiana in which case the Indiana first round tournament game will be counted.

4.25 **A scheduled open date.** Second level points are totaled, divided by the number of games played and the quotient divided by 2 then added to the second level point total.

4.26 **An unscheduled open date** (opponent on strike, closed for economic reasons, fails to honor contract, etc.). Second level points are totaled, divided by the number of games played and the quotient added to the second level point total.

## 4.3 Calculation of Total Points

The sum from the awarding of second level points above will be added to the first level points credited from awarding of first level points to determine the total points.

EXAMPLE Team A plays a nine game schedule consisting of seven (7) OHSAA member schools, two (2) non-member schools with one open date. Team A won eight (8) games losing one (1) to a non-member school (out-of-state). The eight opponents defeated consisted of four Division I teams at 3 points each, three Division III teams at 2 points each and one non-member team at 2 points which won 6 games during the season.

FIRST LEVEL POINTS are calculated as follows:

Division I	4 schools at 3 points	=	12 points
Division III	3 schools at 2 points	=	6 points
Division III	1 non-member school at 2 points	=	2 points
TOTAL FIRST LEVEL POINTS			20

Total First Level Points earned	20
Divided by number of games played	9
Equals	2.2222 quotient

Add	20	total first level points earned
Plus	2.2222	first level value for one open date
Equals	22.2222	total first level points credited

SECOND LEVEL POINTS are earned and credited based upon the victories attained by OHSAA member schools over their opponents. Team A earned 92.5000 second level points. Since Team A had one open date on their schedule, defeated one non-member school and lost to one non-member school, adjustments are made to credit Team A at the second level for the one open date and one victory over a non-member school. No second level points are credited in the game lost to a non-member school.

Calculation:	92.5000	second level points credited from OHSAA member schools
Divided by	7	number of games played against OHSAA member schools
Equals	13.2143	average value of each win at second level
	92.5000	second level points credited from OHSAA member schools
Plus	6.6072	second level value for one open date (1/2 of 13.2143)
Plus	12.0000	second level value for win over non-member school (2 points x 6 wins)
	111.1072	Total second level points credited
Summary:	22.2222	first level points
	111.1072	second level points
	133.3294	TOTAL POINTS

**COMPILATION:** Due to the complexity of the system, computer services of the OHSAA are used to record and tally the points earned by each team. The computer operates only on the data fed into it — that is, did a team win, tie or lose. The margin of victory is not a factor. A win by one point or 20 points counts only as a win — nothing more.

## IF THE SHOE FITS

Please don't curse that boy down there;

He is my son, you see;  
He's only just a boy you know,  
He means the world to me.

I did not raise my son, dear fan,  
For you to call him names;  
He may not be a super-star  
And these are high school games.

So, please don't knock those boys down there

They do the best they can;  
They've never tried to lose a game,  
They're boys, and you're a man.

This game belongs to them, you see,  
You're really just a guest;  
They do not need a fan that gripes,  
They need the very best.

If you have nothing nice to say,  
Please leave the boys alone,  
And, if you've forgot your manners,  
Why don't you stay at home !!

So, please don't curse those boys down there

Each one's his parents' son,  
And win or lose or tie, you see,  
To us, they're number one !!!!!!!!!!!!!!!
