# Your Help Is Appreciated

Dear Fellow Scorekeeper:

Like many of you, for the past ten years I've gone through scorebook after scorebook trying to find one I liked. Books were usually bought by the coach with one criterion—it was cheap. I could never find one I really liked until last year—I designed my own. Tested for one year, I feel the book you are presently using has many distinct advantages:

\*NCR sheet allows you to take the book to the coach at halftime when rules say it must stay at the table. There can be no error in copying these stats in a hurry at halftime—especially player fouls and time outs. Just tear it out and go. Some coaches prefer leaving the sheet in the book until the end of the game so they can have a copy to take home with them. With practice, the sheet can be re-inserted before the third quarter.

\*8½ x 14 format takes up little space on a scorer's table, especially in gyms with sloped tables or small work space. The book also fits a standard clipboard for working convenience.

\*I find it easier to record stats above/below each other than it is to work left and right, with the irritating spiral in the center.

\*Extra columns around names allows you to "stat" any particular item you want: entry in/out of game, rebounds, assists, etc.

I also realize that since the book was designed with you, the scorekeeper, in mind, I would like to hear what YOU feel. Please take a minute at the end of the season and let me know what you liked AND disliked about the book. With your help, THE STATS can continue to be what it was meant to be—a scorebook designed with the scorekeeper in mind.

Thanks,

*RAT*
